#### ABSTRACT

A scientific Research in this article focus that the whole universe and its matter contents shall be considered as **created initially** on origin by the beam of “**Virgin Light**” (or) “**White Flame**”. The virgin light shall also be called as “**J-Radiation**” emitted from the “**White Heart**” of “**Supernatural Creator**”. The J-Radiation shall also be considered as **Holy Spirit** in Biblical term.

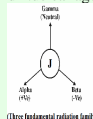

The Beam of J-Radiation shall be considered composed of Billions of thin rays. **Each thin ray** shall be considered as representing “**each family**” of created matters and life. Further the Billions of initially created families of matters shall be considered as descended from a fundamental “**Virgin J-Family**”.

In Biology Taxonomy, the classification of various plants, animals and other non-biological family of matters etc shall be considered as descended from the “**Stem Cells**” of “**J-Family**”.

This research focus that in the expanding universe the J-family matters considered undergone wide **diversity** and three major genetic changes and produced thousands of **new families** in major three variation in new cosmic radiations.

The research focus during the cosmic radiation era the speed of light descended from “J-Radiation” shall be considered undergone three **variations in speed** due to growth of “**Sufficient Mass**” to the fundamental particles of fundamental J-family the **three family generation** light shall be considered as below

1st Nuclear age – “ $\gamma$  - Family” 2nd Nuclear age – “ $\beta$  - Family” 3rd Nuclear age – “ $\alpha$  - family”

This research emphasize that the three family of cosmic radiations shall be considered genetically variant due to variation in **space, time, gravity** of universe in three phases of “**Nuclear age**”. The Philosophy of space, time, gravity shall be considered closely associated with characteristics of SUN, EARTH, MOON.

Time – Sun, Gravity – Earth, Space - Moon

It is focused that the so called “**Speed of Light**” stipulated in two “**Einstein’s theory**” in Quantum physics (ie) special relativity theory, general relativity theory shall be considered as “**3<sup>rd</sup> generation light**” which is capable of traveling at the maximum speed of **299,792,458 meter/second**. The J-family radiation shall be considered as capable of **flying** constantly at the maximum speed of “ $3.0 \times 10^8$  meter/second”.

It is further focused that the three major nuclear age shall be considered as evolved due to variations in relative position of **SUN, EARTH, MOON** in the universe in three geological periods.

It is emphasized that the observations made by **Einstein sir** in his “**Relativity theory**” shall be considered as due to variation in “relative position” of **SUN, EARTH, MOON** which results in three major genetic cosmic variation of space, time and gravity. The impact of three geological age space, time, and gravity shall be narrated as below:

“*Space, Time, Gravity shall be considered as three genetic variation parameters of universe due to impact of generation of three cosmic families of  $\alpha, \beta, \gamma$  radiations.*”

### Introduction

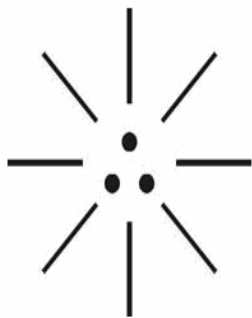

The scientific study focus that the fundamental light source to the Earth is

“**SUN**”. The radiation emitted by the chromospheres of the sun at around about

6000°K in the visible region of Electromagnetic spectrum and roughly 44% of sun light energy that reaches the Earth as **visible light**.

In this research it is focused that the J-Radiation shall be considered as the most fundamental **primary source of light** and all others are secondary cosmic radiations. The J-Radiation shall be considered as the **“First born”** matter of universe “Virgin Light” (White flame) virgin light shall mean **“absolutely pure”** and **“white”** and **FLYING** at the highest speed of all matters of universe irrespective of medium.

The J-Radiation shall be considered as composed of three-in-one fundamental neutrino particles **“PHOTON”** **“ELECTRON”** **“PROTON”** called as **“Virgin Particles”**. The neutrino particles shall be considered having **“Zero mass”** and having definite **WAVE PROPERTY** charge polarity, electric, magnetic, optic properties.

Because of interdependency the three parameters shall be considered consistently variant in three nuclear age and geological period. It is focused that the Philosophy of Space, Time, Gravity shall be considered closely associated with characteristics of **SUN, EARTH, MOON**.

In fact it is focused that Tesla, Newton, Einstein shall be considered as Trinity organs of the creator Nathan i.e. Right hand of Nathan is Einstein, Left hand of Nathan is Newton, brain of Nathan is Tesla. It is further hypothesized that SUN, EARTH, MOON never revolve any planets and it rotate only **on its axis** the various cosmological routine environmental changes shall be considered happening due to **relative position** of inner core and outer core of SUN, EARTH, MOON.

It is speculated that in the early Universe the Nathan was highly stable and **STANDSTILL** due to symmetry in relative position of SUN, EARTH, MOON. During expanding Universe due to impact of Sun clock, the relative position of SUN, EARTH, MOON become variant in three nuclear age and consistently become asymmetric. Due to this asymmetry the Nathan started **DANCING** by moving the legs, hands, head for counter balance to make **“UNIVERSAL EQUILIBRIUM”**. Due to this fact of asymmetry and imbalance the following cosmological changes shall be considered happening consistently as follows.

(a) On creation the prehistoric human shall be considered having only three chromosome derived from three fundamental neutrinos. Subsequently during three nuclear age three human families might have been evolved and attained to the stage of 46 chromosome. Similarly the prehistoric human on creation might have had only single type blood AB and during the course of time four type blood might have been evolved within three families of human.

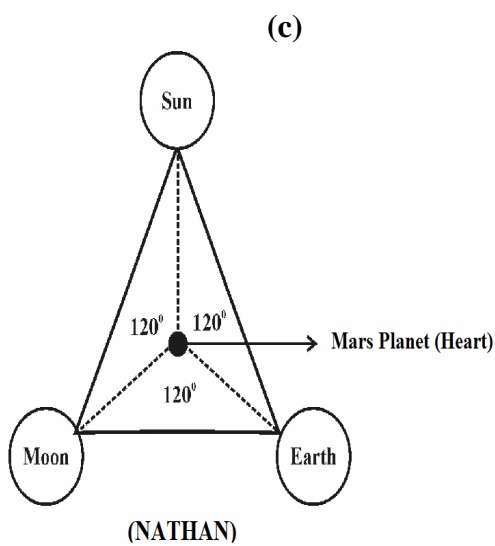

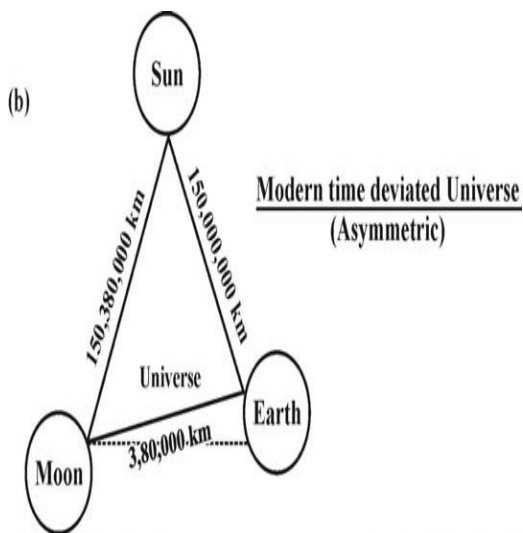

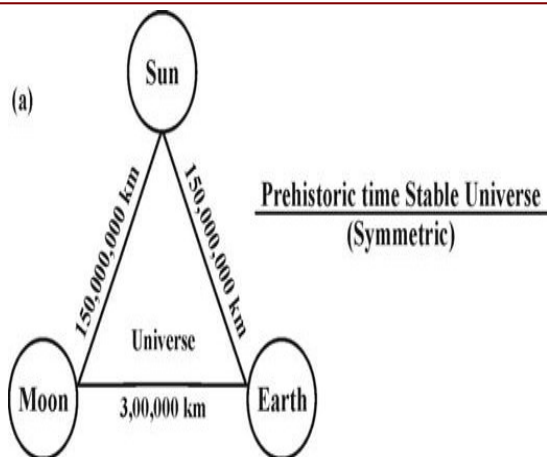

(b) The prehistoric human might have had standard heart pulse of around 60ppm. During the course of time the standard pulse rate might have been increased to 72ppm. It is speculated that the standard pulse rate may be shifted to 90ppm by 3000AD.

(c) In the early Universe the natural frequency of oscillation of Earth might be **zero** and subsequently deviated to 7.83Hz which is observed by Schumann resonance. Scientists focus that the Schumann resonance is consistently increasing and is expected to reach 12Hz by 2100.

(d) In prehistoric time the axis of rotation of earth might be zero and subsequently might be deviated to present level of axial angle of 23.5°. Astronomers confirmed that moon is movin away from earth 3.8cm per year.

The prehistoric and modern time relative position of SUN, EARTH, MOON is indicated as below. MARS planet shall be considered as heart of Nathan and source of Virgin Light.
